

new CONTAINER FORWARDING

ShipCargo Ltd has extended its container and forwarding activities due to an increasing demand from our existing and new clients.

As a pro-active response to dynamic customer demand, we provide a direct tailor made service to our clients.

Our focused specialists are well experienced from many years within this segment of business. We represent first class overseas container lines on a worldwide basis.

In close cooperation with our chartering department, we provide logistic solutions for project and breakbulk cargoes on a worldwide basis. Our broad network of shipowners, operators and haulage companies gives us the possibility to offer the most efficient and economical transports.
